

JURISIN

in association with Fourth JSAI
International Symposia on AI
(JSAI-isAI2012)

Sixth International Workshop
on Juris-informatics
(JURISIN2012)
Miyazaki, Japan
Nov 30 – Dec 1, 2012

 @JURISIN2012 

Aims and scope

Juris-informatics is a new research area which studies legal issues from the perspective of informatics. The purpose of this workshop is to discuss both the fundamental and practical issues for juris-informatics among people from the various backgrounds such as law, social science, information and intelligent technology, logic and philosophy, including the conventional "AI and law" area. We solicit unpublished papers on theories, technologies and applications on juris-informatics.

~ Important Dates ~

Submission Deadline: Sep 17, 2012

(Max 14 pages in Springer LNCS style)

Notification: Oct 15, 2012

Camera Ready Due: Oct 29, 2012

Workshop: Nov 30 -

Dec 1, 2012

Topics

Argumentation /
Argumentation agent /
Legal term ontology /
Translation of legal
documents /

Formal legal knowledge-base / Intelligent management of legal knowledge-base / Use of informatics and AI in law / Legal issues on ubiquitous computing, multi-agent system and the internet

Legal reasoning /
Computer-aided law
education / Social
implications of use of
informatics and
AI in law /
